

$\Sigma\sigma$

THE “R” IN DMAIC

Recognize The Issue

THE FIRST STEP IN CREATING VALUE

○ Recognize

Value Needs:
Many people
do not know
about this
step in the
DMAIC
process

$\Sigma\sigma$

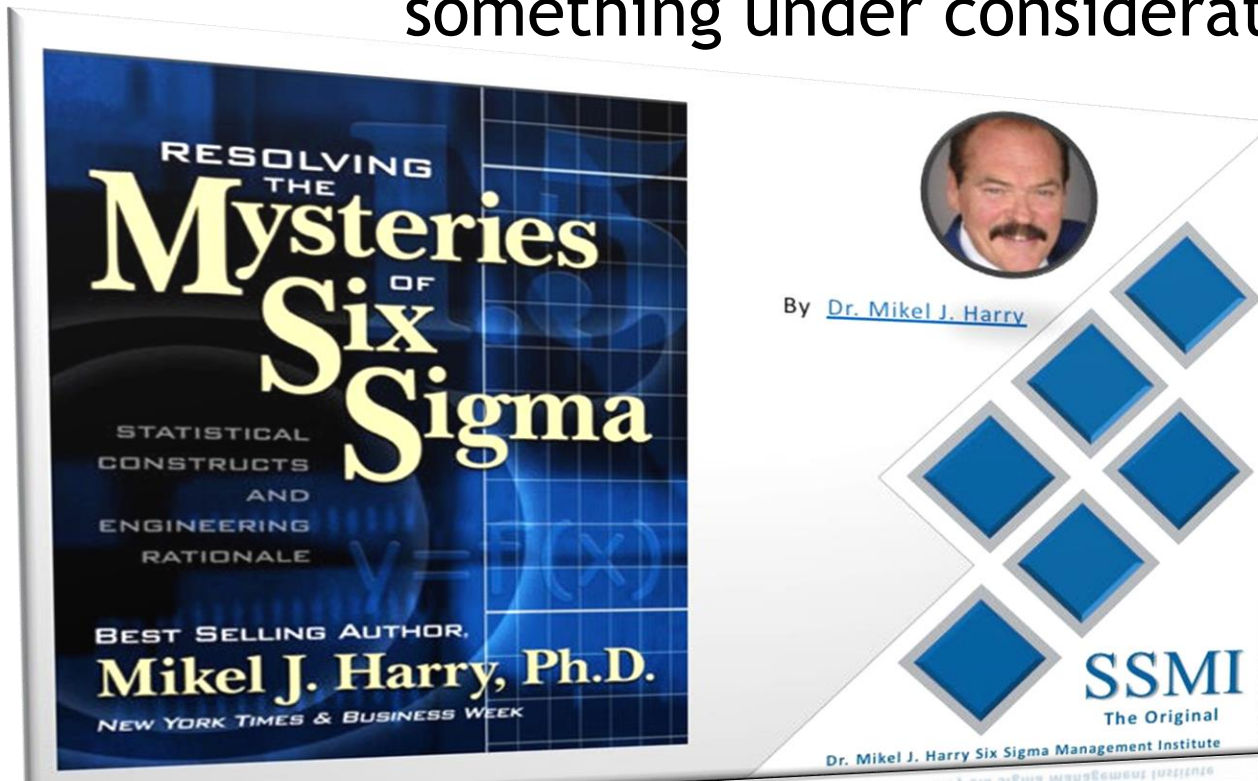

THE FIRST STEP IN DMAIC IS TRUE VALUE

- True value is composed of three main points which are utility, access and worth

VALUE COMPOSITION

- Utility: The act of being useful or beneficial.
- Access: To obtain or retrieve
- Worth: The value equivalent to that of something under consideration

GAPS

- ◉ Gaps that exist readily effect the quality of something

- ◉ If Gap is greater than zero, there is a need

- ◉ Work diligently through continuous improvement initiatives to minimize Gaps

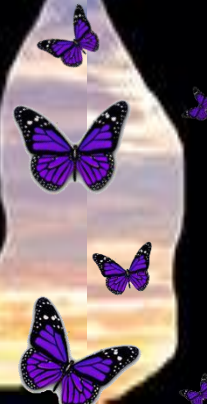

CONCLUSION

- ◉ DMAIC has more steps than five

- ◉ In order to create change and eliminate Gaps, you must first recognize the issue

- ◉ First baseline your current state then benchmark
